Mariborski mestni grad je zaradi svoje lege v središču mesta še posebej zanimiv. Začetki gradnje segajo v leto 1478. Kasneje so mu dodali grajsko kapelo, uredili viteško dvorano in priključili renesančno bastijo. Najmlajši del gradu je rokokojsko stopnišče iz 18. stoletja, ki slovi kot eno najlepših v Sloveniji.

The Maribor city castle's position in the centre of the city makes it a special point of interest. The building was first started in 1478. Subsequently, the castle chapel was added, the knight's hall was established and a renaissance bastion was annexed. The latest part added to the castle was the rococo stairway in the 18th century, which is famous as one of the most beautiful in Slovenia.
