## TREES AND MONUMENTS IN THE PARK AND THE TOMŠIČ AVENUE

- **Trees in the park**

Today in the City Park there are about 100 species of native and foreign deciduous trees and many coniferous trees. Almost a quarter of the trees originate from the time of the first planting. In the year 1998, on the occasion of the 100th birthday of Maribor's Olympic champion [Leon Štukelj](#), one hundred new trees were planted in the park

- **Monuments in the park**

In the park at different periods of time some monuments were erected, of them only two are preserved. On the southern edge of the park stands a memorial to the fighters of the northern frontier; on the northern side of the park there is a memorial to the May Declaration, which during the First World War established the Slovene state. The park is also adorned with sculptures and fountains.

- **The Tomšič Avenue**

You can also visit the Tomšič Avenue, which leads from the main railways station to the City Park. Behind the avenue you can also climb up the hill Piramida, which reigns over the park and city. Piramida offers visitors the best view of the city!
