ŽAMETNA ČRNINA OR MODRA KAVČINA

This is one of the oldest domesticated vintage wine sorts in Slovenia. In former times it was popular in Styrian vineyards but it was even better known, also today, in the region of Doljenska in southeast Slovenia – the renowned red wine Cviček is made from it. Žametna Črnina or Modra Kavčina is namely the most important sort of the renowned red wine called Cviček. It has palmate lobed leaves and beautiful big bunches of grapes with big grapes, which are pleasant to eat. They give the wine a clear red colour.

"The wine from the Old Vine is a pleasantly full-bodied wine. The environment where the Old Vine grows – its location near water, on the south façade of the house - contributes to the high grade of sugar and quality of wine," explains Anton Zafošnik, city vinedresser and custodian of the Old Vine, who with great perseverance and will saved the vine from advancing decay at the end of the 1960s.
